**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Status of the Claims and Examination***

Claims 1-56 are pending. However, claims 29-35 and 44 are withdrawn from consideration as they are drawn to a non-elected invention. Claims 1-28, 36-43 and 45-56 are pending and the subject of this examination.

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

Applicants' arguments filed on 07 August 2008 have been fully considered but are deemed to be unpersuasive regarding the previous rejection. Rejections not reiterated from this Office's previous action are hereby withdrawn. The rejections set forth herein constitute the complete set of rejections being applied to the instant application presently.

### ***Claim Rejections – 35 U.S.C. §103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1614

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1-28, 36-43, and 45-56 are rejected under 35 U.S.C. 103(a) as being obvious over U.S. Patent No. 6,342,527 B1 [hereinafter referred to as O'Lenick et al.]" in view of U.S. Patent No. 6,491,927 B1 [hereinafter referred to as "Arnaud et al."].

The Applicant argues that one of ordinary skill in the art would not have been motivated to combine the teachings of O'Lenick with that of Arnaud to arrive at the presently claimed invention. And further, that upon consideration of all of the facts, the combination of references does not render the present claims obvious. Additionally, Applicant argues that that O'Lenick fails to disclose the claimed polyester in combination with an oil having a molar mass from 650-10,000 g/mol and the Applicant alleges that the secondary reference to Arnaud does not remedy the deficiencies in O'Lenick , because the esters taught in the references do not overlap with the esters in Arnaud et al.

Applicant has amended language in the claims 1 and 54-56 to incorporate specifics on the high molecular mass oil contemplated by his invention consistent with those on pages 12 and 13 of the initial disclosure.

Art Unit: 1614

Applicant's traversal has been fully and carefully considered, but fails to be persuasive. The arguments of this Office's Actions of 05 May 2008, 01 November 2007, and 14 February 2007 are incorporated herein by reference in their entirety.

For these reasons made previously of record, the rejection of claims 1-28, 36-43 and 45-56 remains proper and is maintained.

### ***Conclusion***

No claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
